

Top 5 Reasons to Get a New Launch X431 V 8 inch Tablet

Why do you need buy a new Launch X431 v scan tool?

Is it necessary to buy 2017 version Launch X431 v 8-inch tablet?

Any trouble with the old Autel or Launch x431 scan tool?

Top 5 reasons for you to get a 2017 new [Launch x431 v 8-inch diagnostic tablet](#):

- 1- Special functions available
- 2- Full vehicle coverage: Brazilian, Indian, Chinese Australian, cars...
- 3- 2017 New vehicle support: BMW
- 4- 2017 New vehicle support: Toyota
- 5- VW online programming without German server

Go on your reading for details...

1- 2017 Launch x431 v supports “Special Functions”

The 2017 version of Launch x431 v diagnostic tool 100% works good in special functions, especially **perfect in auto key programming**.

Special functions incl. Injector test, Fuel pump test, Purge control solenoid, Oil Reset Service , Steering Angle Calibration, Electronic Parking Brake Reset , Battery Register / Battery Maintenance , ABS Bleeding , Electronic Throttle Position Reset / Learn , Diesel Particulate Filter (DPF) Regeneration , Tire Pressure Monitor System Reset....

For repairmen working in a garage,

- The most popular functions in a repair garage: All covered!!!!!!

TPMS, Oil, Brake, SAS, Gear Learn & Bleeding....

- Very easy to operate: Click, click...done!

Launch engineers optimize the program;

users just click to finish it and never worry about damage when using

- Low cost: no need buy many repair parts

For example,

TPMS reset is necessary after the tire inflation or tire change; with 2017 version launch x431 v, the car repair shop can earn more, almost no need the cost.

2- Widest vehicle coverage among launch x431 scan tools

The new Launch x431 v 8-inch diagnostic tool has the widest vehicle coverage: up to 93 car brands about 220 car models.

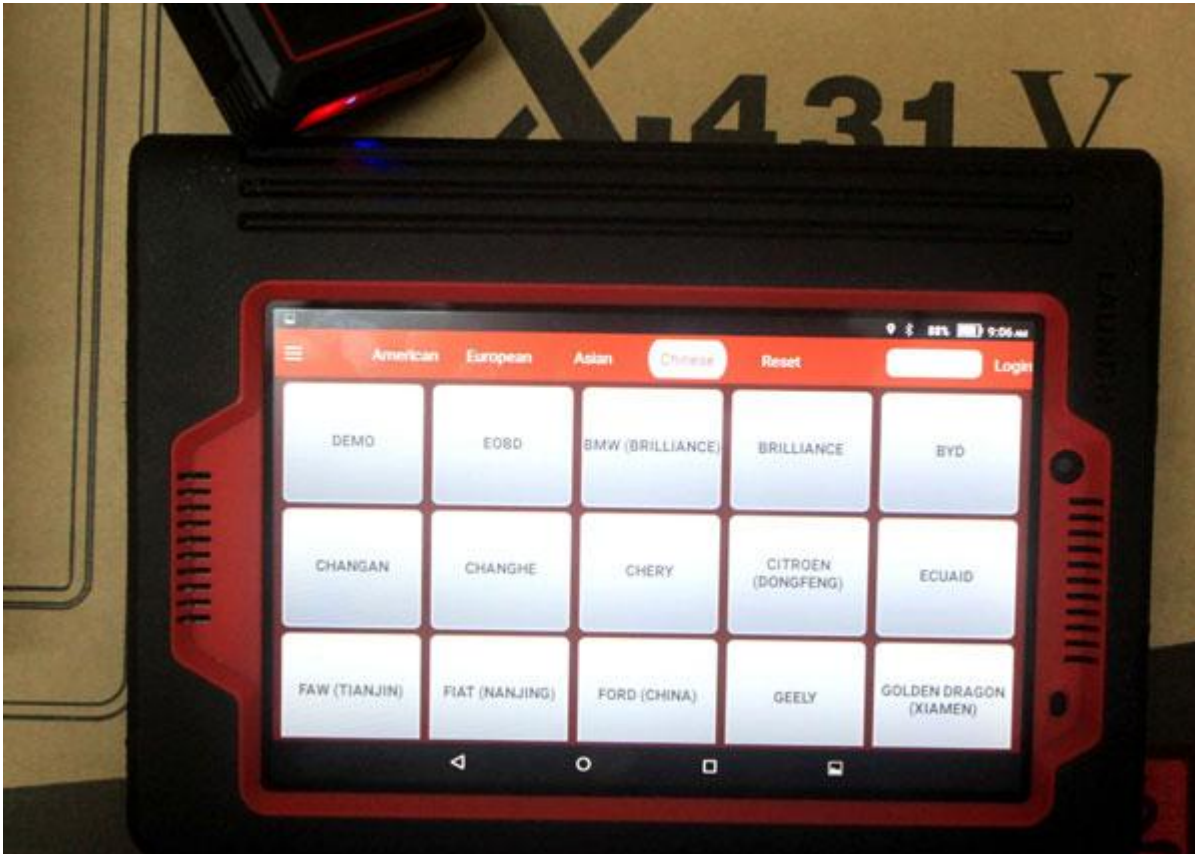

- It can work good on **Brazilian, Malaysian, Chinese, India and Australian cars**, which almost can not be achieved with old launch 431 v scanners.

There almost no good and reliable diagnostic equipment for cars from Brazil, Chinese, India, Australia, so that the Launch team develops and adds the cars successfully.

- Also, it covers **almost full European and USA cars**.

Note: car software can be updated for FREE within 2 years.

Usually, what users pay for launch x431 software update is worth a new machine with a bit extra cost. So, the 2-year free update means that the users get 2 machines at a price of 1 machine; that is, save the cost for one machine.

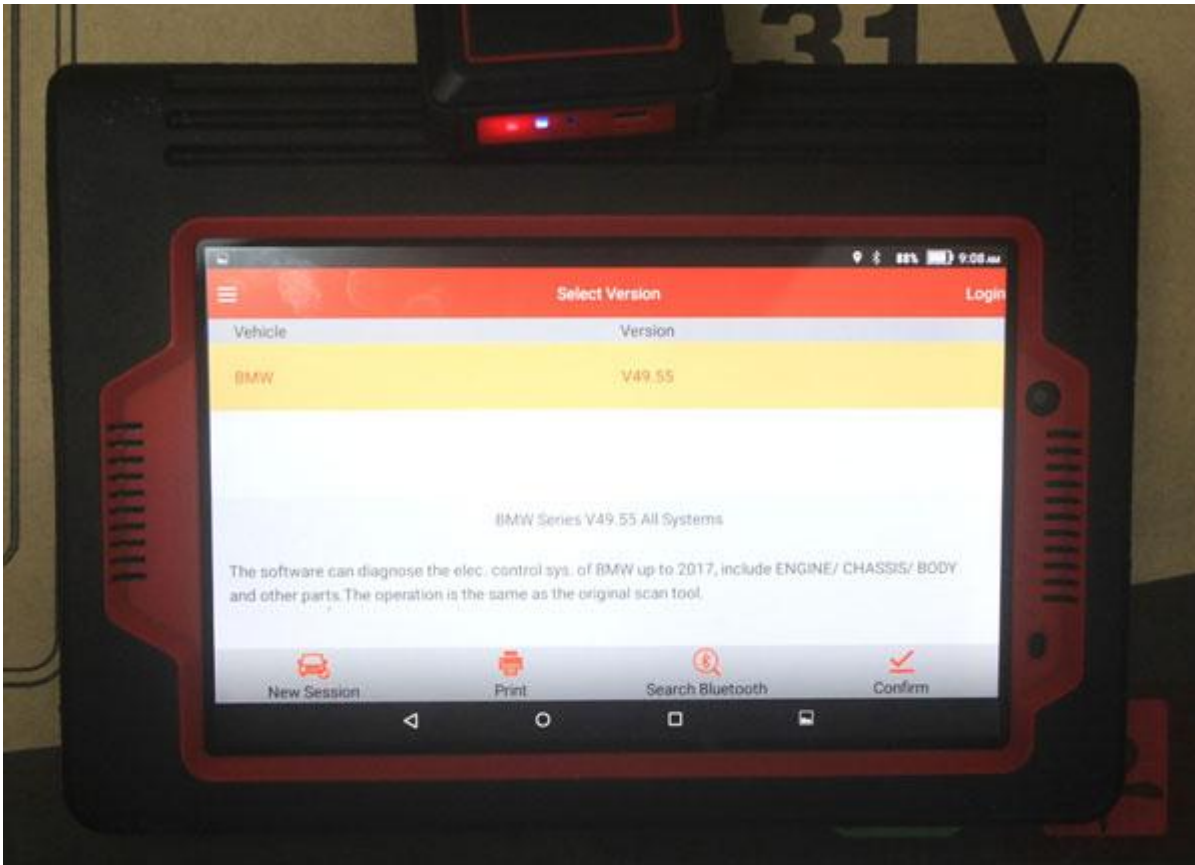

3- 8-inch [X431 V launch](#) supports 2017 new BMW cars.

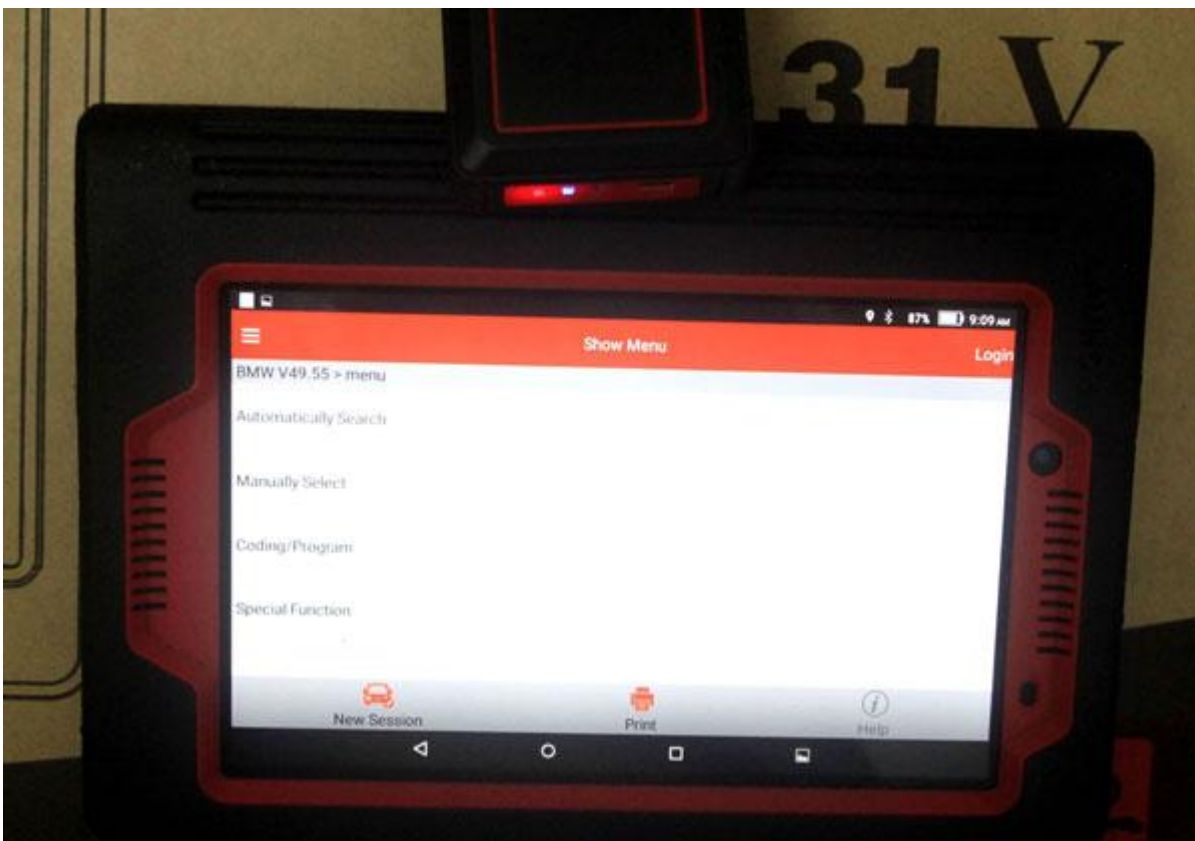

The 8-inch X431 V supports 2017 new vehicles, incl. the 2017 models, such as BMW the 2017 year. BMW v49.55 software can diagnose the electronic systems of BMW up to 2017, incl. Engine, chassis, body and other parts. The operation is the same as the original scan tool.

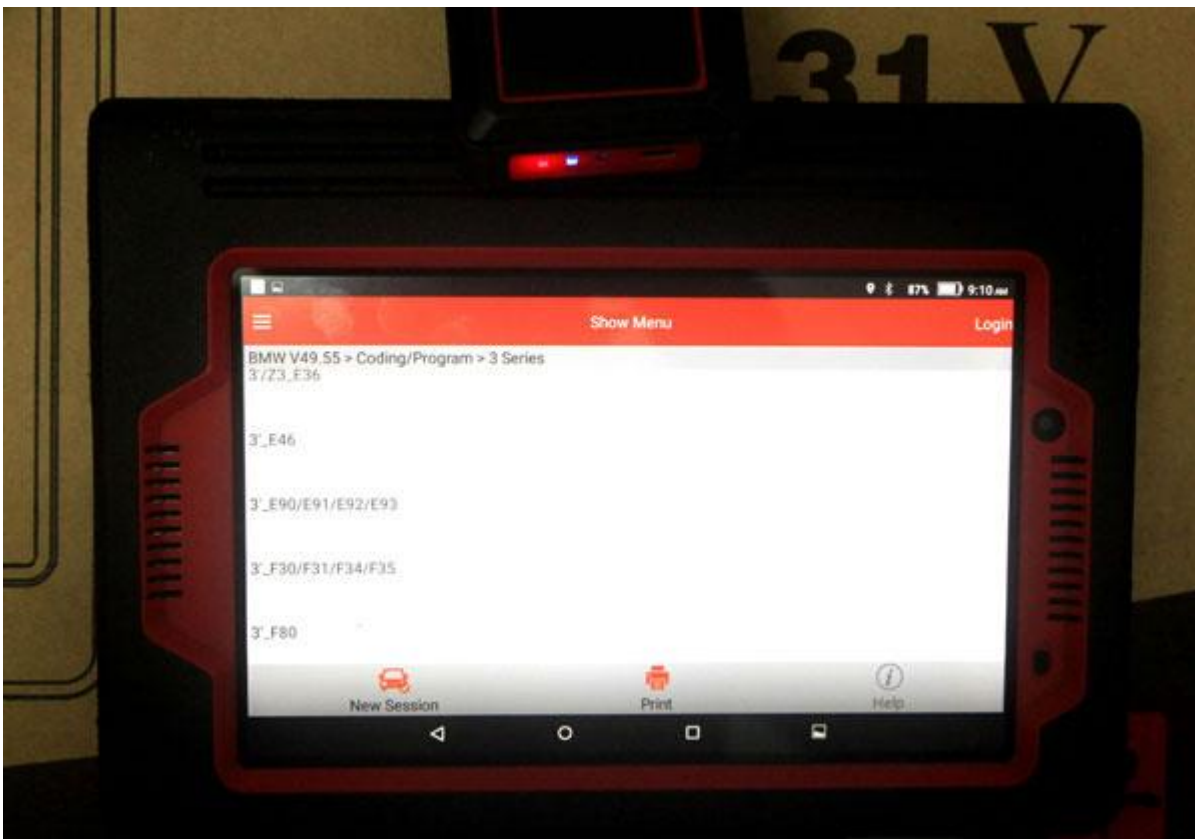

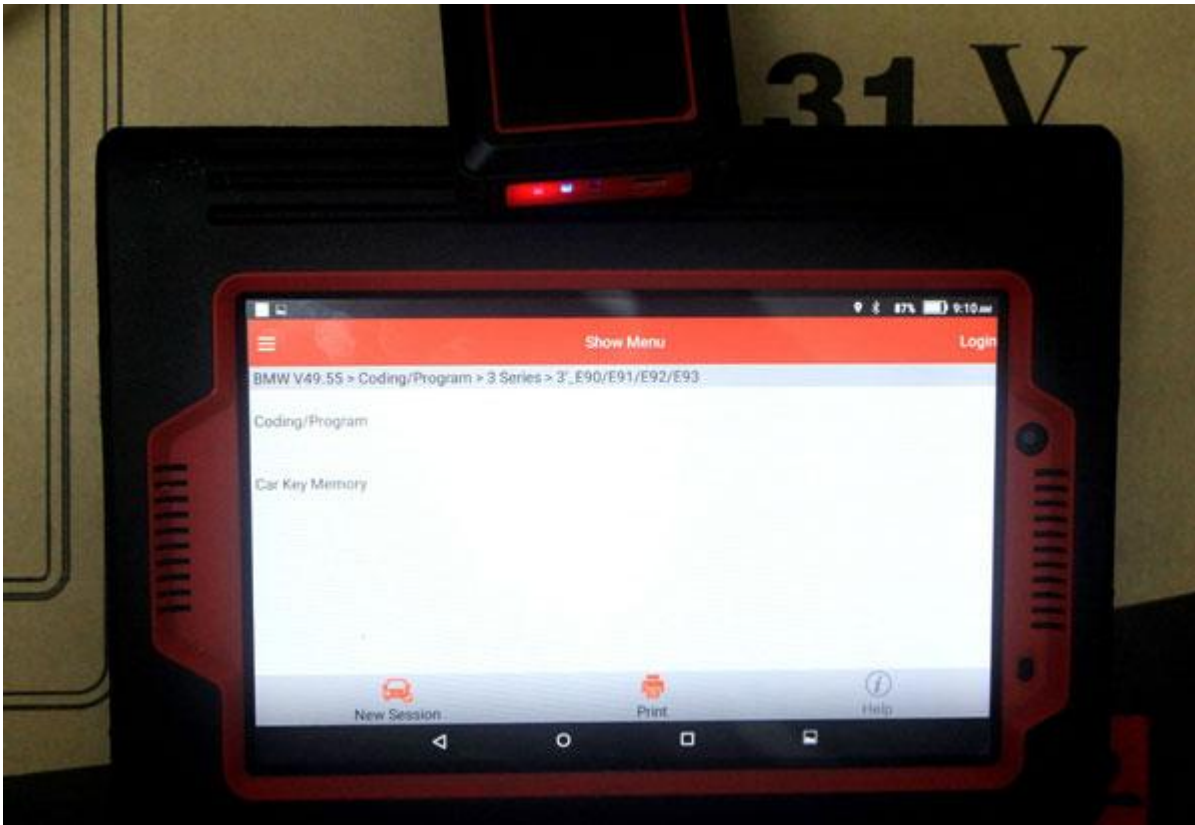

More functions are supported, incl. automatically search, manually select, coding program and special functions....

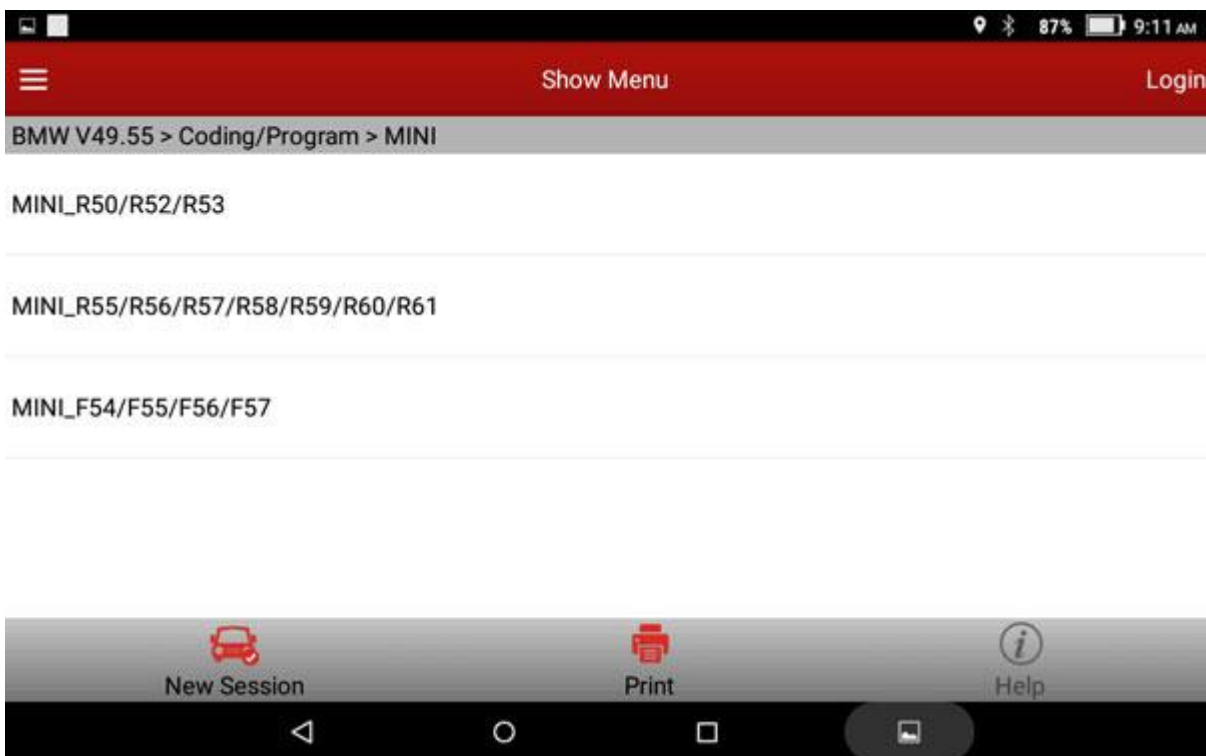

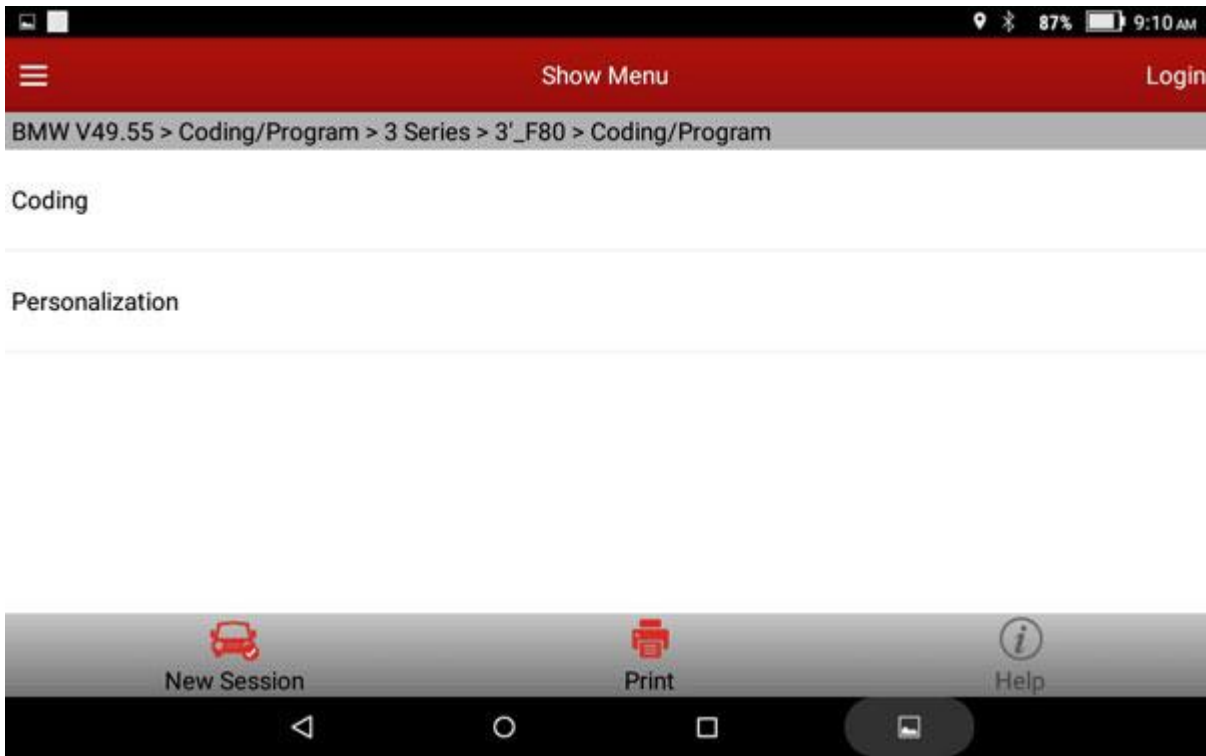

Note: Coding program

The coding program is **much easier** to operate, compared with the original equipment. Just click on the tablet to finish coding. Repairmen/users can **save the training cost**, which usually is as several times as the tool.

The BMW coding program interface via Launch x431 v

new x-431 v bmw software features:

- bmw key programming...perfect
- cheaper than a professional bmw key programmer
- much much easier to program keys than with others**
- less risk to take
- special functions....ok
- tested 100% with oil, tpms, brake, sas, gearlearn & bleeding
- free update with 2 years

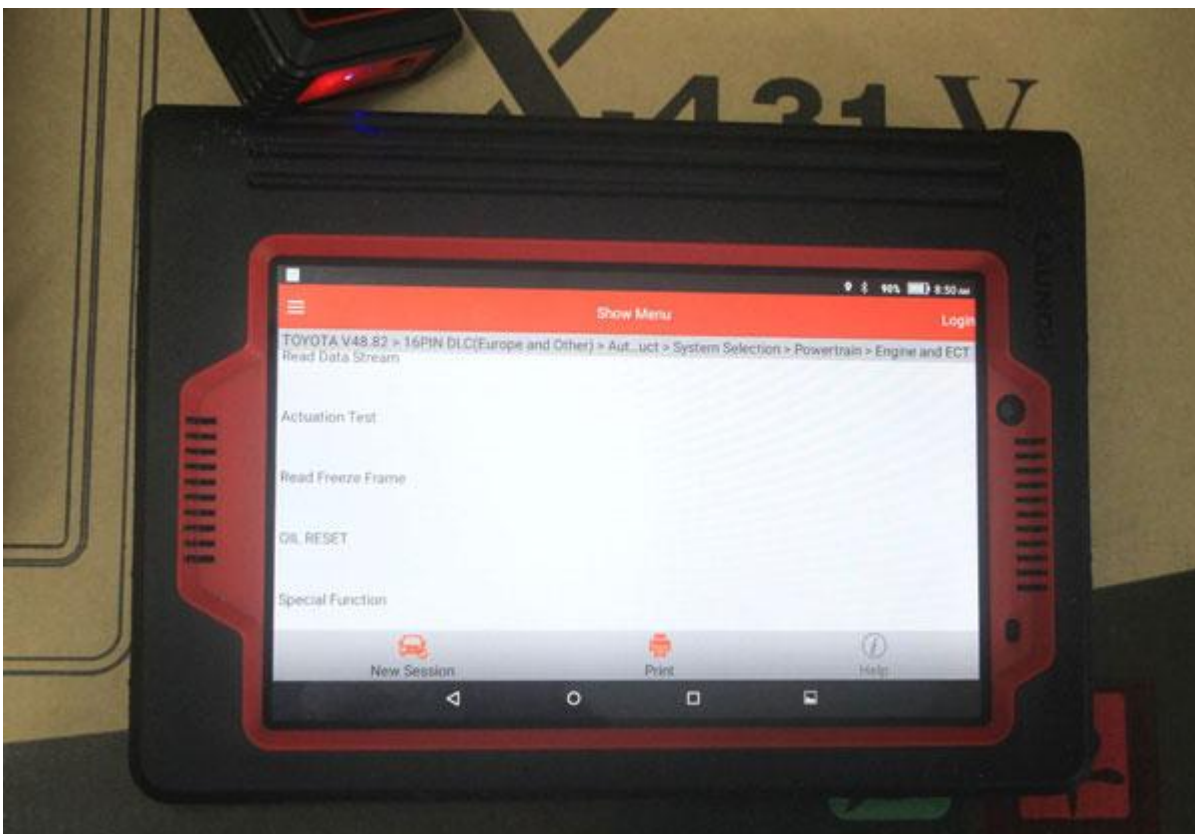

4- The new launch can support 2017 Toyota cars.

The 2017 version launch obd2 scan tool is verified to work ok with 2017 Toyota models.

Toyota v48.82 software can diagnose powertrain, chassis and body systems up to 2017 on Toyota vehicles.

Special functions can be available even in the 2017 Toyota.

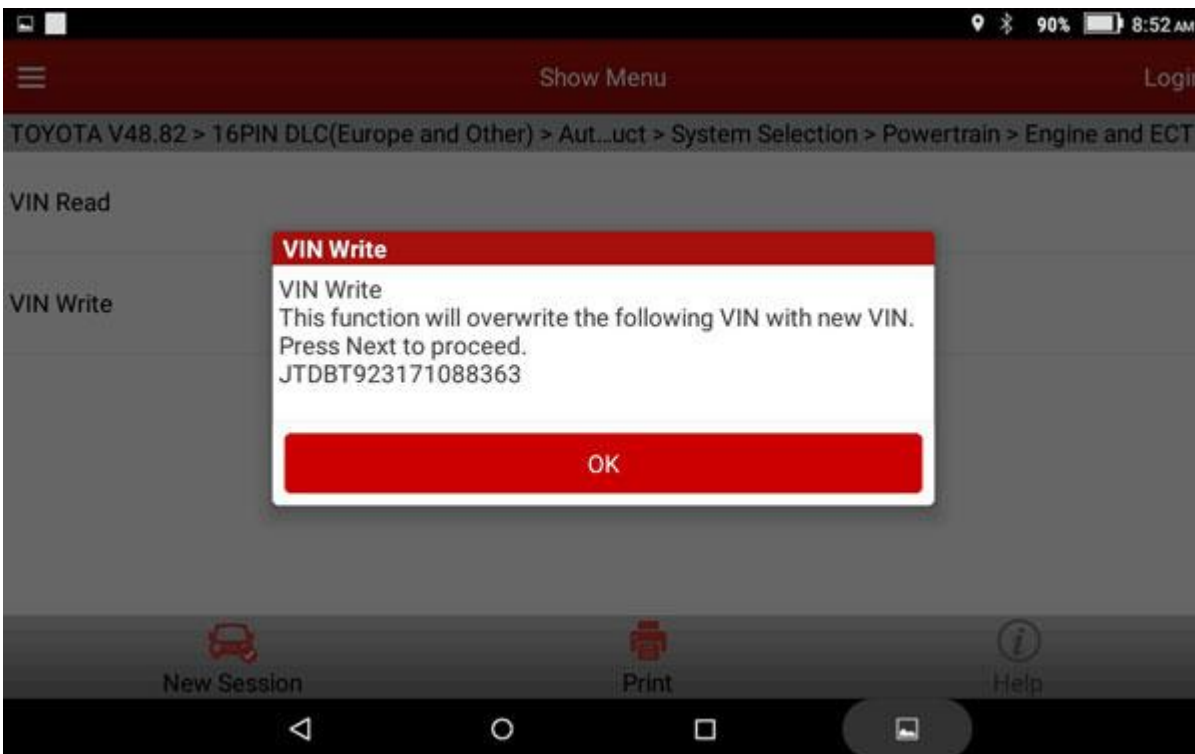

!!!! Highlight!!!

Module exchange, registration, electric throttle learning... OK for Toyota!

VIN Write..OK

This function will overwrite the following VIN with the new VIN

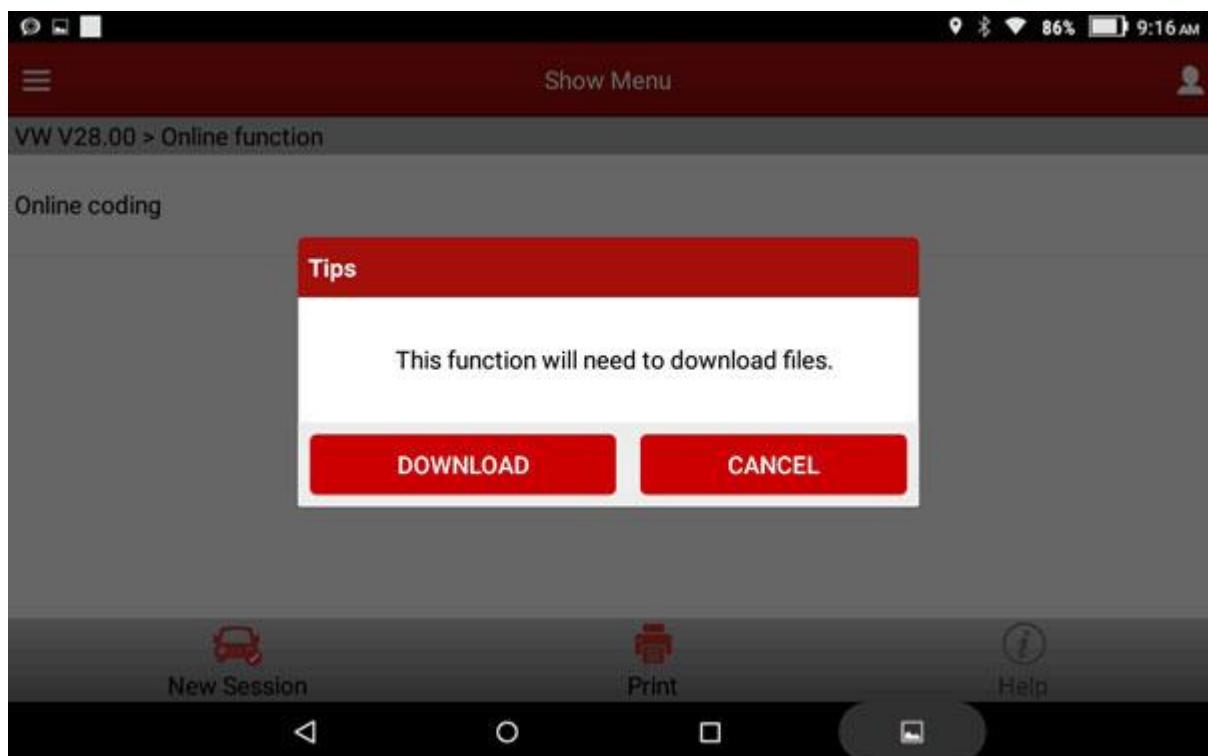

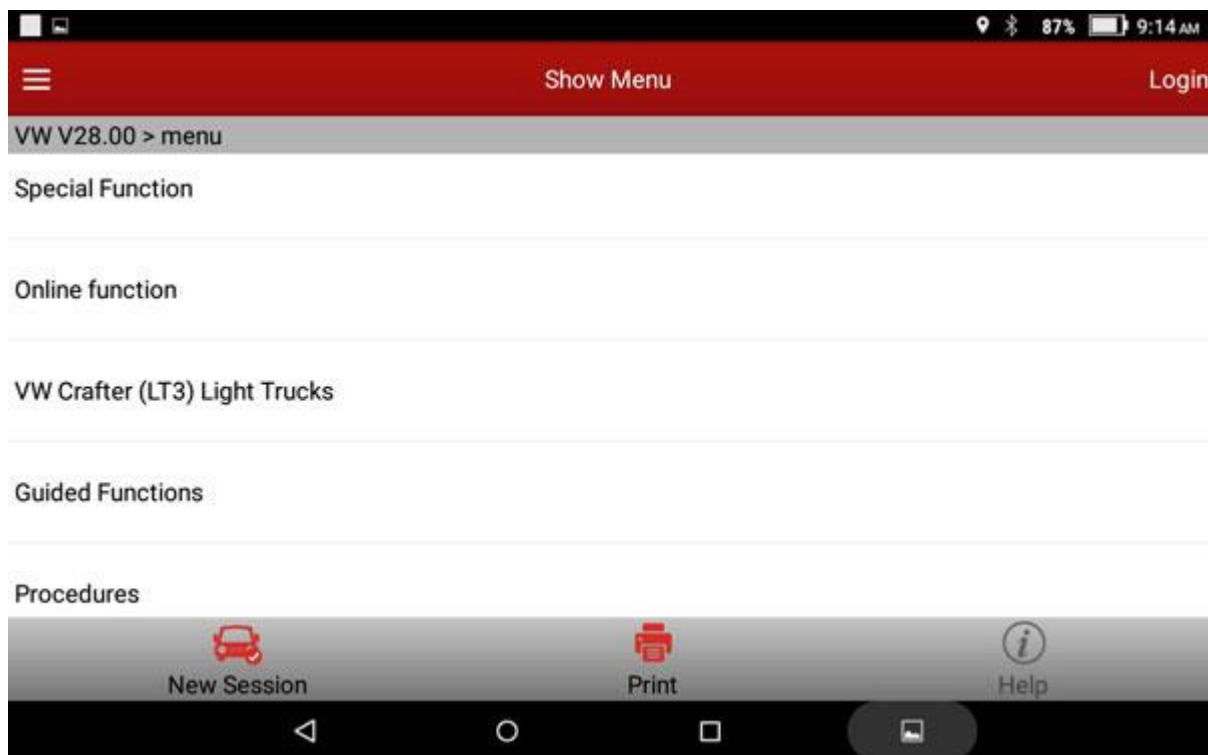

5- VW online programming: No need the German server

Online function is available through VW V28.0 software running on **Launch x431 v 8-inch** diagnostic tool:

- **No need the German server**

- save a lot

- a must for an auto repair shop
- the only tool can realize it

So, here are the TOP 5 reasons of the 2017 Launch x431 v 8-inch obd2 scan tool. Also, there are lots of benefits of it, such as

- 8 inch bigger screen with higher resolution
- reasonable PDA design
- better Bluetooth connector, distance: 10M(Without Obstacle)
- no need activation

- no IP and language limitation
- change the setup language yourself
- fast running speed

....
